The Fund's investment program is speculative and entails substantial risks. There can be no assurance that the Fund's investment objectives will be achieved or that its investment program will be successful. Investors should consider the Fund as a supplement to an overall investment program and should invest only if they are willing to undertake the risks involved. Investors could lose some or all of their investment.

The Fund is not a liquid investment. You should generally not expect to be able to sell your Shares (other than through the limited repurchase process), regardless of how we perform. Although the Fund is required to implement and has implemented a Share repurchase program, only a limited number of Shares will be eligible for repurchase by the Fund. As a result, an investor may not be able to sell or otherwise liquidate his or her Shares. Please see the Fund's prospectus for "REPURCHASE OF SHARES".

Investors should be aware that investments in private equity are speculative and often include a high degree of risk. Investors could lose the entire amount of their investment or recover only a small portion of their investment if the fund suffers substantial losses. Shares are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment and for whom an investment in the Fund does not constitute a complete investment program.
